Application/Control Number: 09/862732

Art Unit: 3662

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 9, "an e-commerce environment" is indefinite.

Claims 10-18 depend from an indefinite antecedent claim.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

Application/Control Number: 09/862732

Art Unit: 3662

4. Claims 1-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Kielland.

Kielland teaches the claimed method and structure for assigning object identifiers including a global positioning system receiver (column 7, line 11, column 8, lines 61-65) and the use of an identifier which the provided location and time information in an encoded format (column 12, lines 26-30, column 15, lines 58-62).

5. Claims 1-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Zeller et al.

Zeller et al teaches the claimed method and structure for assigning object identifiers including a global positioning system receiver (column 4, line 8) and the use of an identifier which the provided location and time information in an encoded format (column 3, lines 61-63).

6. Claims 1-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Montoya.

Application/Control Number: 09/862732

Art Unit: 3662

Montoya teaches the claimed method and structure for assigning object identifiers including a global positioning system receiver (column 4, lines 2-4) and the use of an identifier which the provided location and time information in an encoded format (column 4, lines 36-39).

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 8. Claims 1-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Vandivier, III.

Vandivier, III teaches the claimed method and structure for assigning object identifiers including a global positioning system receiver (826 and 828 in Figure 3B, column 13, line 39) and the use of an identifier which the provided location and time information in an encoded format (column 12, lines 13-15).

Art Unit: 3662
